

### Mini Optical Mouse / Retractable Cable

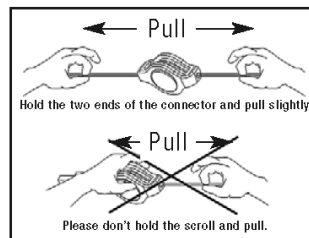

The Mini Optical Mouse requires no driver or software. Simply plug it in and the computer will detect automatically.

#### Operating Instructions:

To extend the USB cord, hold the mouse in one hand and the USB connector in the other.

**Pull both ends of the cord away from the cord wheel at the same time.**

To retract the USB cord, extend both ends of the cord slightly and release quickly.

When the ideal length of USB cord is fixed, plug the mouse USB connector into your PC's USB port and you are ready to go.

### 2 in 1 Pen

- Black refill ballpoint pen
- Stylus point pen

#### Operating Instructions:

- Hold the upper pen barrel (pocket clip on this side) and turn lower pen barrel in the following direction:
  - Turn Counter-clockwise for ballpoint pen
  - Turn Clockwise for Stylus pen
- To change the ink refill, twist off the lower barrel and pull the refill straight out, then insert the new refill
